3 May 2017

1. The enclosed Allied Medical Publication AMedP-8.2, Edition B, Version 2, BASIC MILITARY MEDICAL REPORT, which has been approved by the nations in the Military Committee Medical Standardization Board, is promulgated herewith. The agreement of nations to use this publication is recorded in STANAG 2348.
2. AMedP-8.2, Edition B, Version 2, is effective upon receipt. It supersedes AMedP-8.2, Edition B, Version 1, which shall be destroyed in accordance with the local procedure for the destruction of documents.
3. No part of this publication may be reproduced, stored in a retrieval system, used commercially, adapted, or transmitted in any form or by any means, electronic, mechanical, photo-copying, recording or otherwise, without the prior permission of the publisher. With the exception of commercial sales, this does not apply to member or partner nations, or NATO commands and bodies.
4. This publication shall be handled in accordance with C-M(2002)60.

Edvardas MAŽEIKIS  
Major General, LTUAF  
Director, NATO standardization Office

<p><b>CHAPTER 1 RELATED DOCUMENTS</b></p>
---

The following documents are of special importance for this AMedP :

1. MC 326/3 – NATO Principles and Policies of Medical Support
2. STANAG 1059 INT – Letter Codes for Geographical Entities
3. STANAG 2061 MED – Procedures for Disposition of Allied Patients by Medical Installations
4. STANAG 2132 MED – Documentation Relative to Medical Initial Treatment and Evacuation

**INTENTIONALLY BLANK**

## CHAPTER 2 INTRODUCTION

### 2.1 GENERAL

It is important for the further treatment of a wounded service person that the military clinical record is following the service person from one hospital to another, no matter if it is between allied hospitals or back to a national hospital. This record will contain a minimum of information and will be standardized.

### 2.2 AIM

The aim of this Allied Medical Publication is to standardize the minimum information to be included in a Basic military medical report when patients from one nation are treated in hospitals of other nations and how to handle this information when patient are transferred from one MTF to another military or civilian hospital.

### 2.3 AGREEMENT

Participating nations agree to the details herein.

1. The information listed in the Basic Military Medical Report, see Chapter 3 below, will be valid for both in-patient and out- patient treatments. All personal information therein will be treated like all other medical information with respect to confidentiality.
2. When a patient of one allied nation is treated in a military hospital of another nation, a Basic Military Medical Report will be prepared for her/him. This record will accompany the patient upon transfer between Military Medical installations/Hospitals or back to parent nation.
3. The record will be forwarded to the patient's national military medical authority according to Annex A, when:
  - a. The treatment of the patient is completed,
  - b. The patient is discharged from the hospital or dies,
  - c. The treatment record meets the criteria for retirement.

4. The Basic Military Medical Report should be issued on a computer medium or in an electronic/digital form where practicable or in paper format.
5. When a Field Medical Card and/or Patient Evacuation Tag has also been prepared, it will accompany the Basic military medical report.
6. The minimum information in the Basic Military Medical Report should be standard for all the forces concerned and include all items listed in the paragraphs in Chapter 3 below.
7. Changes to ANNEX A – LIST OF NATIONAL MILITARY MEDICAL AUTHORITIES – may be performed as editorial changes as appropriate, without any need for a new ratification process. Each nation has the responsibility for providing the correct data to the Custodian Nation – Norway – who will forward the given information to NSO for editorial changes ASAP.

<p style="text-align: center;"><b>CHAPTER 3 MINIMUM INFORMATION TO BE INCLUDED IN THE BASIC MILITARY MEDICAL REPORT</b></p>
---

### **3.1 GENERAL**

It is vital for the further treatment of the patient that the minimum information found in the Basic Military Medical Report is correct and standardized between nations in a NATO operation. The following information is always to be found in the Patient's Personal Information Record.

### **3.2 PERSONAL INFORMATION**

1. Surname (Family name).
2. Forenames.
3. Personal service number or identification number, if civilian patient.
4. Rank/Grade.
5. Military unit or organization to which the patient belongs or is attached (unless this is classified for security reasons).
6. Home Nation and armed force with which patient is serving.
7. Sex.
8. Age (Date of birth).
9. Branch or Service.
10. Name and unit of patient's commander (unless this is classified for security reasons).

### **3.3 MEDICAL TREATMENT FACILITY INFORMATION**

1. Name or number of hospital which prepares the record.
2. Nation to which hospital belongs or lead nation, LN.
3. Location of hospital (unless location is classified for security reasons)

### **3.4 MEDICAL (CLINICAL) INFORMATION**

1. Date patient was admitted to hospital.
2. Site of Injury/Injury and Mechanism of injury/illness (if applicable)
3. History of patient pertinent to condition for which treatment is given.
4. Report of physical examination.
5. Report of surgical procedure and findings (if any).
6. Diagnostic and therapeutic orders.
7. Observations made by professional staff during patient's stay in hospital.
8. Reports of actions and findings, including laboratory, X-ray, and other diagnostic tests as appropriate. If surgery was performed, a full surgical report will be included with detailed summaries of procedures performed and findings during the surgery.
9. Conclusions, including final diagnosis.
10. Recommendations for further treatment, if necessary.
11. Final disposition of patient (date returned to duty, transferred to another hospital (indicate which hospital) or died).

### **3.5 AUTHENTICATION OF THE RECORD**

The Basic military medical report should be authorized by the attending clinician or other authorized health personnel before hospital discharge or transferral to another MTF

1. Name, rank, position and signature of officer authenticating the record.
2. Date the record is signed.

### **3.6 ENGLISH OR FRENCH SUMMARY OF MEDICAL RECORD, BASIC MILITARY MEDICAL REPORT**

A brief independent summary of the medical history and treatment facilitated in the current MTF should be made to follow the patient to next level of treatment, this should be written in English or French. § 3.4, 1., 2., 3., 4., 5., 9. and 10. should be prioritized.
